# Student Progress

Throughout the LSI programme, we monitor the academic development and well-being of each and every student carefully. We ensure that every student progresses as quickly as possible and achieves their full potential. At LSI we are very proud of our high student satisfaction rates.

The level reached after studying at LSI depends on a variety of factors:

- Duration of the course – the longer the course, the better the results
- Number of lessons – a more intensive course helps you progress faster
- The language level of the student at entry

Final results will always depend on you, the student. Active participation in afternoon social activities, making new friends from all over the world, immersing yourself in the local culture, as well as speaking the target language as much as possible, will greatly affect your achievements.

"I can truly say that LSI has changed my life. For me LSI was much more than just a school. I made such good friends that I'll keep for life."

EMANUELLE CUNHA, BRAZIL

# LSI Language Learning System

We're passionate about language learning. That's why we're constantly reviewing the latest trends and methodology in the field.

Academic staff from every LSI school participate in the research and development of our programmes. We ensure that the latest theories of language learning are considered and evaluated throughout our centres. That's why every one of our schools is a healthy environment for learning. The following points are fundamental to our language learning system:

## Language Immersion

At LSI we believe that the best way to learn a language is to study in the country where the language is spoken. We want you to immerse yourself in the culture and truly 'live the language'.

## LSI Levels

Upon arrival at any LSI school, we'll give you a comprehensive language level test so we ensure you go straight into the right class for you. LSI levels have been closely matched to the Common European Framework, TOEFL iBT, TOEIC, IELTS and University of Cambridge English examinations. To move up to the next LSI level you need to master our specific 'level objectives', which you can demonstrate by test scores and class participation.

At LSI we understand that some students learn faster than others, so our course is tailored for you as the individual. There are regular opportunities to discuss your progress with your teacher.

Through systematic testing, monitoring your class performance and constant teacher appraisal, the school academic director will track your progress and identify exactly when you have mastered the level objectives and are ready to move up to the next level. This monitoring and testing allows us to grade between and within levels, allowing you to spend more time studying with the students and materials at the level which is right for you.

## Latest Materials

We're constantly reviewing the latest materials available for language learning. We provide you with what our academic team have identified as being the very best materials currently available for your level. We are also committed to providing the latest technology, utilising the most cutting edge audio, video and web based resources to bring modern, real world language into the classroom.

## Cultural Exchange

As you 'learn and live the language' you will gain a greater understanding of the country in which you are studying. And as our students come from all over the world, our centres are not just places to learn languages, but are also places to meet and share experiences with people from a huge range of backgrounds and cultures.

## Quality Teachers

We understand that our students' single most identifiable measure of programme quality is the teacher. That's why at LSI we only work with dedicated, highly motivated teachers, qualified with country specific teaching credentials.

As such we have a systematic programme of teacher development and performance evaluation. All of our students are regularly invited to provide feedback so that we can ensure that your teacher meets your expectations.
