www.lsi.college

1. Enrol with LSI College

Once enrolled, you will receive your **LSI College email account**, giving you access to the **learning platform, course materials and programme resources** on Microsoft Teams.

2. Learn Online, at Your Own Pace

- All lessons are **pre-prepared** and ready to study through Microsoft Teams.
- **Course materials & assignments** are available through Teams.
- Complete your learning around **your own schedule**.
- **Communicate with teachers** and fellow students through Teams.
- Arrange **peer study sessions** with other students.
- Students can start the course at different times, providing flexibility around when they begin.

3. Receive Feedback and Guidance

Students will complete six mini-assignments throughout the course, alongside the required main assignments.

Each assignment will be reviewed by a subject expert, who will provide feedback to support your learning and progress.

Your subject teachers will provide **feedback** on each assignment through Teams, helping you understand your progress and areas for development. You will also have **three live tutor sessions** throughout the programme for additional guidance, feedback and progress checks.

Can't attend a live session?

A recording will be shared on Teams so you can watch it at a convenient time.

4. Get Support with Your UCAS Application

From the beginning of your programme, you will have access to a **dedicated UCAS Coordinator**.

You will receive guidance on:

- Completing your **UCAS application**
- Writing your **personal statement**
- Choosing your **university options**
- Understanding the **application process**
- Asking questions and **receiving guidance** through Teams

LSI College will support you throughout your programme and **university application journey**, helping you work towards completing the course and securing university offers.

Please note: Students are responsible for meeting the conditions of any university offers, including required grades, English language requirements and any other entry criteria set by the university.

Flexible
learning,
wherever you
are. Learn at
your own
pace. Prepare
for your next
step.

Administrative Support

Need help with an
administrative or
practical question?

The LSI College
Administration Team
is available to assist
you throughout your
programme.

You can contact the
team through your LSI
email or Microsoft
Teams whenever you
need support with
programme
administration.

5. Complete Your Final Assessments

Final Assessment – Assignment Based

Your final assessment will be **completed and submitted through Teams**. As the assessment is externally marked, LSI College will submit the assessment to the external exam board as part of the assessment process.

Results: Issued in July/August.

6. Mathematics Examination

Mathematics is the only **exam-based** subject on the programme.

Students outside the UK will need to sit their examination at a **recognised examination centre or British Council centre**.

- **Additional examination centre fees may apply** and are separate from LSI College fees.
- Students living in the UK can sit their exam at LSI College and will not incur an additional examination centre charge.

Regular engagement and timely submission of assignments are an important part of successfully completing the programme.

Please note: Failure to engage adequately with the course or submit the required assignments may result in discontinuation from the programme, in which case no refund will be provided.

Fee and Scholarships

**PROGRAMME
FEE:
£5,999**

Partial scholarships are available to eligible students.

LSI College does not charge additional programme fees.

Any external examination centre charges, where applicable, are separate from LSI College fees.
