ENGLISH FOR PUBLIC SPEAKING & PRESENTATIONS

Mini Group 10 lessons per week

COURSE DESCRIPTION

The **English for Public Speaking & Presentations** programme is designed to develop students' confidence and effectiveness in delivering presentations in English. It combines practical skills training, exposure to authentic models (such as TED Talks), and hands-on presentation practice. Students will learn how to prepare and structure talks, engage audiences, use visuals and stories for impact, and deliver presentations with confidence and clarity. Each week emphasises a different dimension of public speaking, building toward a final individual presentation where students showcase their learning.

The course integrates Keynote and Presenting in English materials with supplementary resources. Students will practice through mini-presentations, pair and group work, and guided feedback. By the end of the program, learners will be able to deliver well-structured, engaging, and persuasive presentations in academic and professional contexts.

This programme can be booked **independently** or in addition to a **morning 20 lessons course**, such as General 20, Exam Preparation 20, Academic English 20 or Business English 20. Check the availability of these programmes with the school.
